# ABOUT US

We have been established for over 40 years, and work in partnership with more than fifty local authorities and clients from both the private and public sectors nationwide, with a continued emphasis on supplying high quality products and exemplary service.

## Our products

We specialise in the supply of furnishings and fittings that are designed and manufactured to withstand the rigours of use in hostels, educational establishments, SEN facilities, care homes and hotels.

All of our products are manufactured with strength and durability as the main priority and meet or exceed British and European standards of construction and, where necessary, fire retardancy.

## Our service

We hold large stocks of core range products which enables us to offer immediate delivery, even on quantity orders.

Delivery charges are based on quantity and distance. However, we promise to keep this to a minimum and, in practice, large orders and those to regular clients are normally delivered without charge.

Our professional Delivery & Installation team will carry out all deliveries efficiently and with discretion. As part of our service we unpack and remove packaging from site, and place items where required.
